

THE AEWEN PARTNERSHIP WILL BE AT POLLUTEC, LET'S MEET!

WHAT IS AEWEN?

Africa Europe Water & Energy Network (AEWEN) is a European project, which aims to create a dynamic network with European and African stakeholders and thus to **develop concrete solutions** in the renewable energy and water sectors. Relations have been established with three African countries: **Morocco, Senegal and Tunisia**.

Over 150 public and private members are involved in the network and benefit from **international support**. This includes collective business missions in Africa, capacity building, market intelligence and networking opportunities.

The AEWEN network is the result of a project co-financed by the European Union and is carried out in collaboration with **four partner clusters**: Tenerrdis (France), Catalan Water Partnership (Spain), Environment Park (Italy) and Cluster TWEED (Belgium).

MEET US AT POLLUTEC

- ✓ **From 10th to 13th at booth F040-28 (Hall 4, Tenerrdis)**
- ✓ **On Wednesday 11th at the international forum – AEWEN Business day**
 - 2 pm | open tour of exhibitors working in the water & energy sectors (suggested tour with pre-selected companies)
 - 4.50 pm | AEWEN: Opportunities for Africa/Europe collaboration in the water & energy sectors
 - 5.15 pm | Project example: CASASOL, a rural centre of solar resources in Senegal
 - 6 pm | Networking cocktail
- ✓ **Participate in the Greendays and organise your B2B** before September 30th: <https://green-days-pollutec-2023.b2match.io/>
